

## Go Free Proficiency Exam: Memepathogen Analysis

For each of the five provided passages, write one or two paragraphs that explain what MPs are contained or implied in the text, how they cause harm or inflict injury on Westernkind, and how the text implies or contains them. Bonus points are offered for a more in-depth analysis of the fallacies and biases present in each text. In a second paragraph, offer an MC for each MP. Be sure to apply the method of Confront, Counter, Dispel for each MP to completely diffuse. This will show your mastery of the Go Free method. This portion of the exam is worth 75 points. 25 points are possible for each aspect of the exam, and each is graded as follows.

**MP Identification:** There are at least 5 MPs each passage, so for full success on this exam, all of them. Extra credit will be rewarded for additional MPs discovered beyond 5.

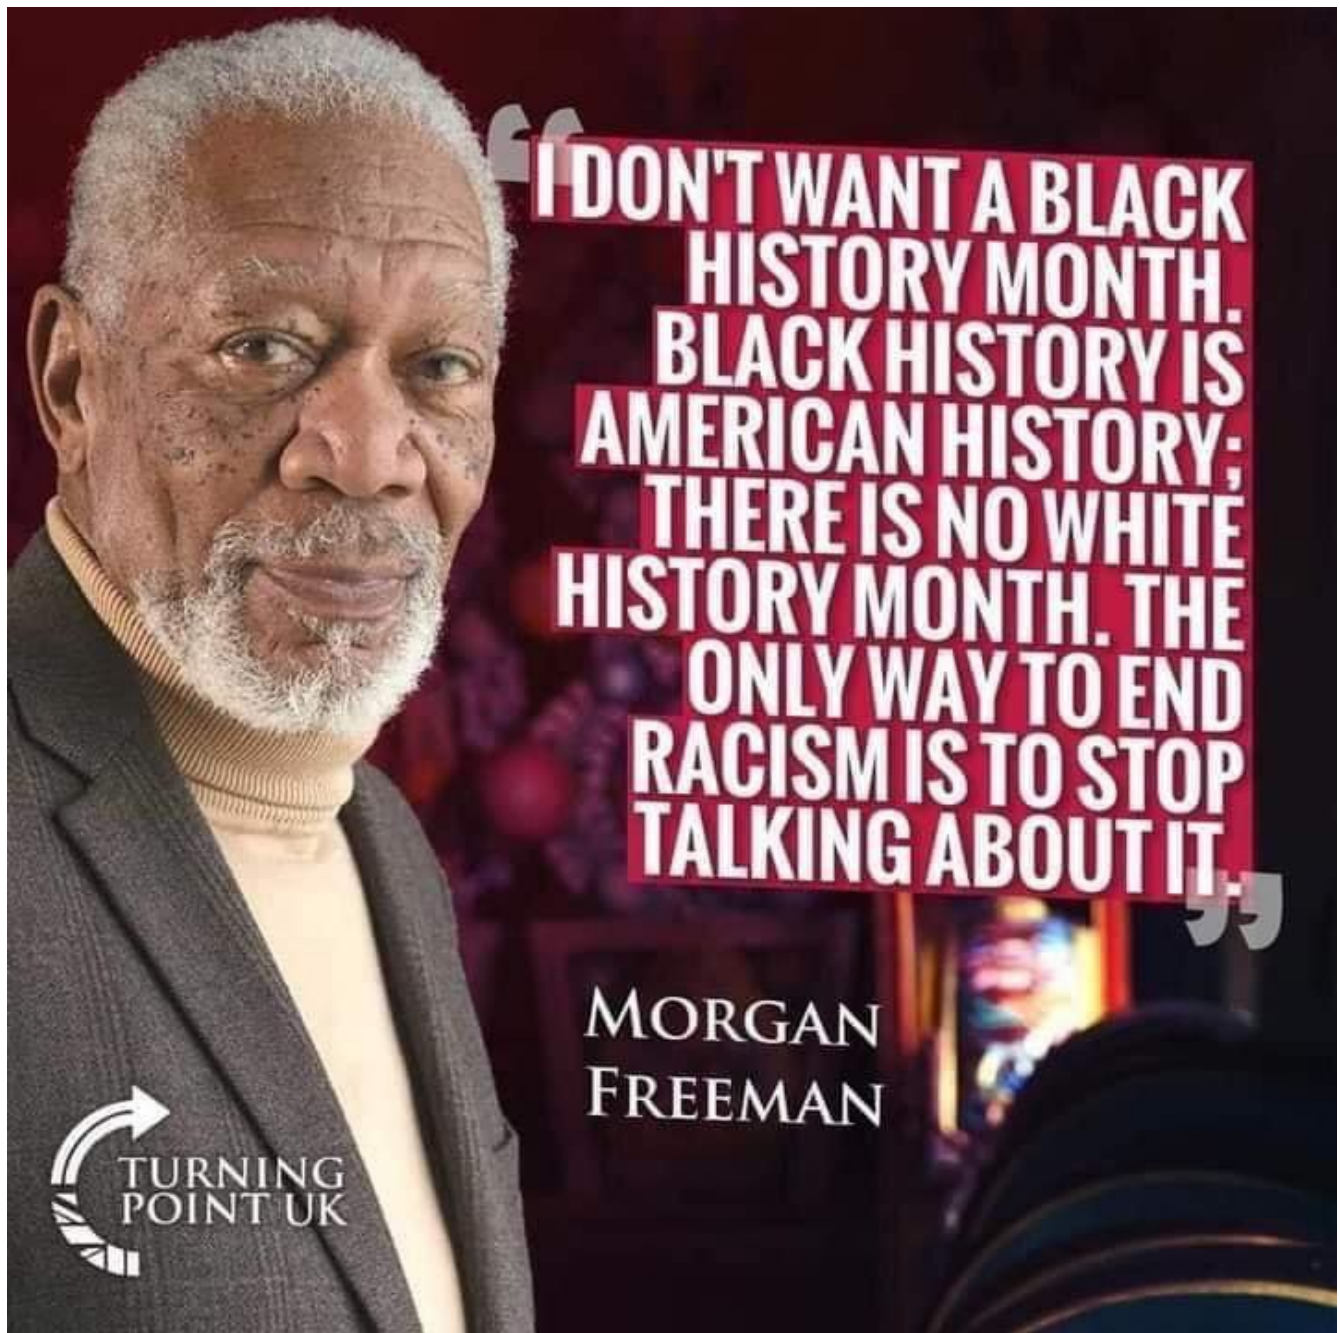

<b>0 – 9 Incompetent</b> 0 – 2 MPs are identified for each passage. They may or may not be evident in the text. No serious explanation is attempted of the MPs' harmfulness.	<b>10 – 14 Weak</b> 2 – 4 MPs are identified for each passage that are evidently present in the text or implied by the text of each passage. There may or may not be an attempt of explanation.	<b>15 – 19 Novice</b> 3 – 5 MPs are identified for each passage that are evidently present in the passage or implied by the text. There is an attempt to explain the harm or injury of each MP.	<b>20 – 25 Proficient</b> 4 – 5 MPs are identified for each passage that are evidently present in the passage or implied by the text. The harm or injury caused by each MP is clearly explained.	<b>25 + Adept</b> 5 or more MPs are identified and categorized for each passage that are evidently present in the passage or implied by the text. The harm or injury caused by each MP is clearly explained.

**MP analysis:** Explain the connection between each MP and the text; justify your list of MPs and how the text contains them in its language or implies them logically.

<b>0 – 9 Incompetent</b> No attempt at explaining the connection of the text and the MPs is given or the analysis is nonsensical.	<b>10 – 14 Weak</b> The connection between the text and each MP is poorly explained with little detail and almost no analysis.	<b>15 – 19 Novice</b> (Requires Novice or better on MPI) The connection between the text and each MP is partially explained so there is some idea how each MP may be present in the text.	<b>20 – 25 Proficient</b> (t or better on MPI) The connection between the text and each MP is adequately explained so that it is clear how the text contains or implies each MP.	<b>25 + Adept</b> (Proficient or better on MPI) The logic and fallacies of each text is explained in detail, including how each MP is present or implied by the text. This is written in an eloquent, coherent paragraph.

**MC Efficacy:** Provide an MC for each MP. Be sure to explain how it successfully defeats each MP.

<b>0 – 9 Incompetent</b> No MCs are given or the MCs provided are merely expressions of disapproval or are too weak. Some or all may be nonsensical.	<b>10 – 14 Weak</b> A few MCs may completely defeat their MPs, but most attempted MCs are either too weak or are expressions of disapproval.	<b>15 – 19 Novice</b> (Requires Novice or better on MPI) Some MCs completely defeat their MPs, and others are too weak. Some further explanation may be present.	<b>20 – 25 Proficient</b> (t or better on MPI) Each MC completely defeats each MP both rhetorically and logically. The CCD method for all or most is explained.	<b>25 + Adept</b> (Proficient or better on MPI) Each MC completely defeats each MP both rhetorically and logically. The CCD method for each is explained.

Slavery is a necessary component of an Islāmic order, and the abolitionist movement was utilised in the lands of the Muslims as a mode of Christian imperialism to enforce the Church's values and destroy Muslim economies. Look at the famine abolition caused in Tunisia for example. [twitter.com/\\_Bint\\_e\\_\\_adam\\_...](https://twitter.com/_Bint_e__adam_...)

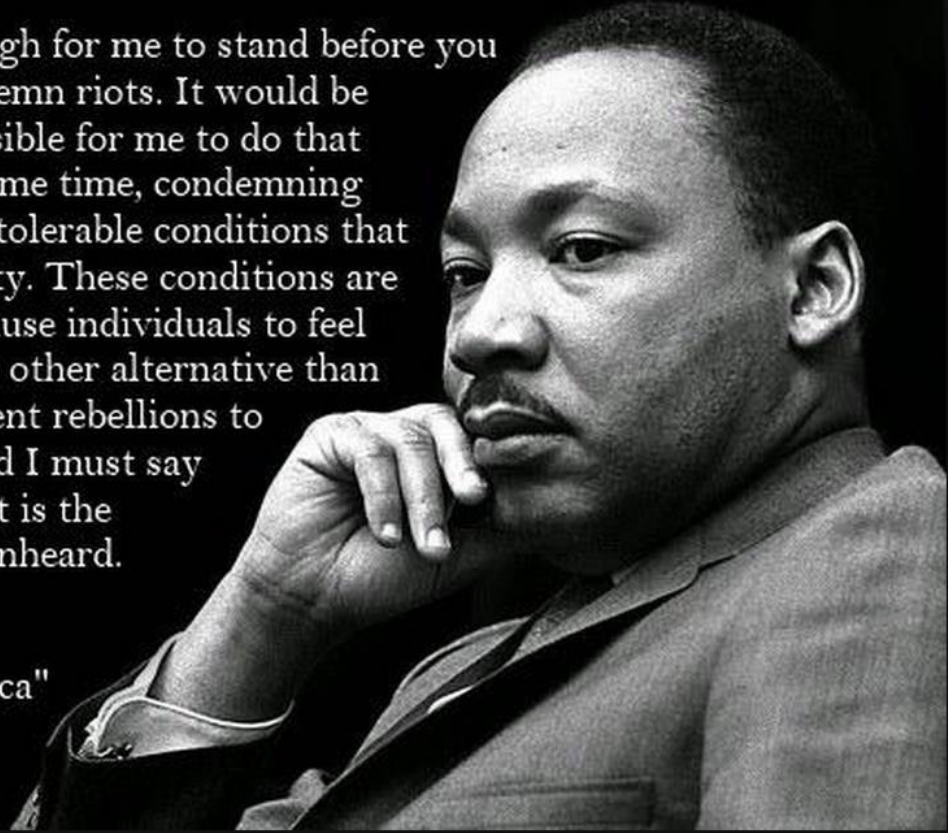

Black and brown people are

know where you white  
Neanderthals came from. Space,  
or maybe hell?

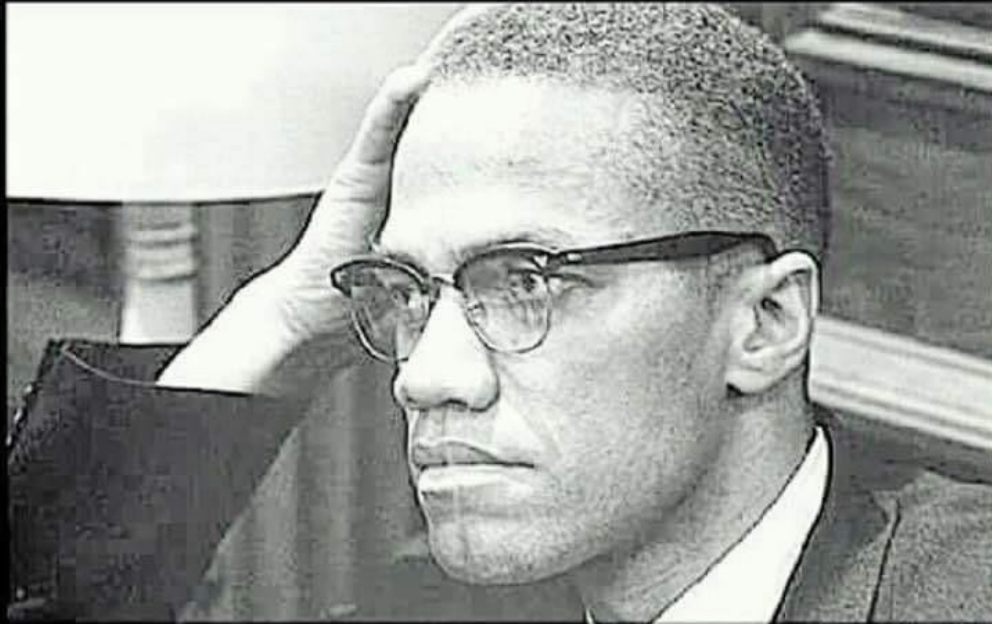

But it is not enough for me to stand before you tonight and condemn riots. It would be morally irresponsible for me to do that without, at the same time, condemning the contingent, intolerable conditions that exist in our society. These conditions are the things that cause individuals to feel that they have no other alternative than to engage in violent rebellions to get attention. And I must say tonight that a riot is the language of the unheard.

**"If you stick a knife in my back 9 inches and pull it out 6 inches, that's not progress. If you pull it all the way out, that's not progress. The progress comes from healing the wound that the blow made. They haven't begun to pull the knife out... They won't even admit the knife is there."**
